

Regular

Regular, Split-Apart

Tapered, Split-Apart

Tapered

The **Titan Rescue Litter Series** is a complete rethinking of the classic Stokes military-style stretcher. The top rail is 1" (2.5 cm) diameter, making the stretcher easier to handle when carried for extended periods. Available in one-piece or split-apart and regular or tapered. For the ultimate in strength to weight ratio, Titan Titanium Rescue Litters set a new standard for rescue litters.

Features

- Titanium frame, lighter for bariatric use
- Regular model is compatible with any backboard
- Patented StratLoad™ attachment points for secure attachment of lifting bridles
- Replaceable HDPE netting allows water and air flow plus a durable UHMW-PE back support
- Split-apart feature with LocSafe™ connectors provide fail-safe connection and allows the stretcher to be assembled in about 15 seconds
- Designed to surpass the US Military specification MIL-L-37957A. Tested to and beyond a 1,134 kg (2500 lb) static load test threshold
- Large 1" top tube for easy handling
- Titan Tapered enables easier access in confined areas
-
